

Girls Incorporated

One of our girls applied for a Girls Inc. scholarship. These scholarships are open to girls from all Canadian and American affiliates. 2009 saw the highest number of applications and our local girl, on the basis of her application, received a \$10,000 scholarship to complete her education.

She credited Girls Inc. with giving her the confidence to follow her dreams. Girls Inc flew her to Los Angeles for a Celebration Luncheon where she spoke about her experiences here. This was a huge opportunity for her. She is currently the student representative on our Board.
